25 Pedra de Sal

Jacinta and Casimiro

Costa

Portugal

2007

Reusing cast-off kitchen storage units to form the base of their mobile baby care unit, designers and parents Jacinta and Casimiro Costa created 25 Pedra de Sal. The diminutive mobile unit reconfigures components from a child's bike and incorporates disused tubing, spare wheels, an acrylic sheet and an old car mirror. The combined result is a new brightly coloured crib that includes built-in storage for baby clothes, bedding and care products, as well as a nappy change drawer. Resourcefully designed and built by the Costas for their two children, the mobile unit is the coolest crib around.

170 - 171

Tricycle, repurposed kitchen unit, acrylic sheet, mirror

An inspiring, surprising and fun collection of mobile, portable and moveable architecture including house-boats, caravans, tents and huts for deserts, oceans, beaches, mountains and cities that demonstrate the exciting possibilities for life on the move. Mobitecture includes structures powered by motorbike, bicycle, mobility scooter, ski, car, tractor, donkey, shopping trolley, sled as well as human hands and feet.

PHAIDON
