

Footballer's Journey Upgrade

The Challenge:

Our challenge, aims to improve the living conditions and safety of young football players who arrive in Portugal to play football professionally and who challenge financial and social instability.

The Conceptual Solution:

To develop a computer/mobile application that work as a platform for players who have a support group, work proposals and legal information about transfers / inscriptions in the League. There would also be a system for players to speak freely and anonymously about their experiences with certain agents / clubs.

Our team:

Fernando Pereira | Pedro Rodrigues | Carlos Fernandes | Fernando Teixeira
 Jaimeley Tebús | José Azevedo
 Maksymilian Pawlak | Muhammad Saud Khan
